ANKARA YILDIRIM BEYAZIT UNIVERSITY – DEPARTMENT OF PUBLIC ADMINISTRATION
COURSE SYLLABUS

Course Code	Course Title	Course Type	ECTS Credits	Prerequisite Information	Date of Preparation
ECON221	TURKISH ECONOMY	Compulsory	5	None	9/9/2026

Instructor of the Course & E-Mail Address	Assist. Prof. Mert AKYÜZ, makyuz@aybu.edu.tr
Office Hours & Office Room	Monday 12:00-13:00 pm, B362
Course Content and Objectives	This course examines the historical development, institutional structure and principal policy challenges of the Turkish Economy from the late Ottoman period to the present. It covers state-led development, economic planning, liberalization, economic crises, public finance, monetary and financial institutions, sectoral transformation, external economic relations, labor markets, income distribution and sustainable development of the Turkish Economy. Particular attention is given to the relationship between economic policies, political choices and public administration. The course aims to enable students to interpret economic indicators, compare policy approaches and assess their implications for public institutions, social welfare and regional development.
Textbook(s)	Kepenek, Yakup. (2011). Development & Structure of the Turkish Economy. METU Press. Aysan, Ahmet. Faruk., Babacan, Mehmet., Gür, Nurullah., & Karahan, Hatice. (Eds.). (2018). Turkish Economy: Between Middle Income Trap and High Income Status. Palgrave Macmillan. Günsoy, Güler. (Ed.). (2020). Turkish Economy. Anadolu University. Meissner, Christopher, One From the Many: The Global Economy Since 1850, Oxford University Press, 2023.
Teaching Methods and Techniques	In this course, reading materials and class discussions will be used as teaching methods and techniques.

Course Learning Outcomes		
	1	Explain the main characteristics of the Turkish economy using fundamental concepts of economics.
	2	Compare major periods and development strategies in Turkish economic history and relate them to changes in state-market and state-society relations.
	3	Analyze the roles of public institutions and evaluate how fiscal, monetary and regulatory policies interact with political and administrative decisions.
	4	Assess the causes and consequences of economic crises, trade integration and international capital flows for the Turkish economy.
	5	Understand economic growth, inflation, employment, income distribution and sectoral transformation in Turkish Economy.
	6	Evaluate the social, regional and environmental implications of economic policies, including their effects on poverty, inequality and access to public services.

Program Outcomes Contributed by the Course	**Program Outcomes (PO)**	
	1	Analyze relations between societies and states within the context of world history, and evaluate current developments at the national, regional and global levels on the basis of theoretical knowledge. (PO4)
	2	Define the fundamental concepts and principles of economics and public finance and explain the relationship between public finance and economic policies and politico-administrative decisions. (PO5)
	3	Evaluate urbanization and environmental problems at the local, national and global scales, and develop policy proposals to address them. (PO8)

Contribution of the Course to Field Instruction	The course provides the economic background needed to understand political decision-making and public administration in Turkiye. It connects development strategies, public budgeting, regulation and economic policy with the roles of central and local government. This course helps students to assess economic policy trade-offs relevant to public institutions.

Topics Covered in the Course

1. Week	Introduction to the Turkish economy (Günsoy: Chapter 1&2) (Kepenek: Chapter 8) (Meissner: Chapter 1 & 2)
